- (a) *they will assign to Cengild all their income earned by them in other medical centres; and*
- (b) *Cengild will pay them 80% of the income earned by them in other medical centres.*

The 20% of the said income retained by Cengild is recognised as "other income" of the Group.

The amounts quantified herein are based on 100% of the income earned by the Employee Consultants in other medical centres as set out in (a) above.

*

The estimated aggregate value of the transaction from the date of the forthcoming 3rd AGM until the next AGM was arrived at after taking into consideration the past three (3) financial years of the historical data of actual value transacted, and management's forecasts and anticipated business volume. The estimated values may vary and are subject to changes.

@

The Actual Value transacted of the above transactions from the date on which the existing mandate was obtained (i.e. from the date of last AGM held on 30 November 2022) up to the LPD in respect of the Proposed Shareholders' Mandate did not exceed the Estimated Value by 10% or more.

2.4 Outstanding amount due under the RRPTs

As at the LPD, there is no amount due and owing to the Group by its Related Parties.

2.5 Review and Disclosure Procedures for the RRPTs

- (i) In reviewing the RRPTs, the Audit and Risk Management Committee shall review the terms thereof to determine whether such RRPTs will be conducted at arm's length basis, on transaction prices and on normal commercial terms in the ordinary course of business and on terms not more favourable to the Related Parties than those generally available to the public and will not be detrimental to the shareholders or disadvantage to the Group. In its review and approval of such transactions, the Audit and Risk Management Committee may, as it deems fit, request for additional information pertaining to the transactions from independent sources or professionals.
- (ii) In determining whether the arrangement for the Employee Consultants to provide consultation services and medical treatments in other medical centre is fair, essential and favourable to the Group and is not detrimental to the Shareholders, the Audit and Risk Management Committee will take into consideration the following factors:
 - (a) if there are insufficient beds in our medical centre to cater for all the Employee Consultants' patients if the Employee Consultants were to work full time at our medical centre and not allowed to practice in other medical centres, the Employee Consultants may have to turn away patients because of our bed capacity constraint;
 - (b) if the patients of our Employee Consultants have other illnesses that require other specialists' attention which our medical centre does not have such specialists at this juncture and as a result, the Employee Consultants may not be able to treat these patients who are inpatients in other medical centres; and
 - (c) that our medical centre may not be on the panel of certain insurance companies and third party administrators that other medical centres are on, which will result in some patients who prefer to have their medical bills paid directly by the insurance companies or third party administrators may prefer to have their consultations and medical treatments performed in other medical centres.

Subsequent to the review and/or approval of all the RRPTs, these RRPTs will be reported to the Board to ensure that they are properly transacted, documented and monitored.

- (iii) At least two other contemporaneous transactions with unrelated third parties for similar products/services and/or quantities will be used as comparison, wherever possible, to determine whether the price and terms offered to/by the Related Parties are fair and reasonable and comparable to those offered to/by other unrelated third parties for the same or substantially similar type of products/services and/or quantities. Where quotation or comparative pricing from unrelated third parties cannot be obtained, the transaction price will be determined by the Group based on the usual business practices of the Group to ensure the RRPT are not detrimental to the Group.
- (iv) In the case of RRPT where any of the Director has direct or indirect interest, he shall abstain from all deliberations and voting in respect of the said transaction. Where any member of the Audit and Risk Management Committee is interested in any transactions, that member shall abstain from all deliberations and voting in any matter relating to any decision to be taken by the Audit and Risk Management Committee with respect to such transactions.

2.6 Threshold of Authority

There is no specific threshold for approval of RRPTs within the Group. All RRPTs are subject to the approval of the Board after being reviewed by the Audit and Risk Management Committee.

2.7 Statement by the Audit and Risk Management Committee

The Audit and Risk Management Committee has seen and reviewed the procedures established in **Section 2.5** above and is of the view that:

- (i) the said procedures for the RRPTs are sufficient to ensure that the RRPTs will be made at arm's length and in accordance with the Company's normal commercial terms and are not more favourable to the Related Parties than those generally available to the public and are not to the detriment of the minority shareholders; and
- (ii) the Group has in place adequate procedures and processes to monitor, track and identify RRPTs in a timely and orderly manner.

The Audit and Risk Management Committee will review the RRPT procedures and processes on an annual basis.

2.8 Disclosure in the Annual Report

Disclosure will be made in accordance with Rule 3.1.5 of Guidance Note 8 of the Listing Requirements, which requires a breakdown of the aggregate value of the RRPTs entered into during the financial year, amongst others, based on the following information:

- (i) the type of the RRPTs made; and
- (ii) the names of the Related Parties involved in each type of the RRPTs made and their relationships with the Company.

The above disclosure will be made in the Company's Annual Report for each subsequent financial year after the Proposed Shareholders' Mandate has been approved and renewed.

In addition, if the actual value of the RRPTs entered into by the Group exceeds the estimated value of the RRPTs disclosed in the circular to shareholders on the Proposed Shareholders' Mandate by 10% or more, the Company will make an immediate announcement to Bursa Securities.

3. RATIONALE AND BENEFIT OF THE PROPOSED SHAREHOLDERS' MANDATE

Pursuant to the employment agreements and deeds of assignment entered into between Cengild and its Employee Consultants, the Employee Consultants are allowed to provide consultation services and undertake medical treatments for their patients in other medical centres provided that such services are essential and favourable to the Group. All the income earned by the Employee Consultants in other medical centres will be assigned to Cengild and 80% of the income earned will be paid to the respective Employee Consultants as part of their overall compensation packages.

The Employee Consultants of the Group are allowed to practise in other medical centres mainly due to one or more of the following reasons:

- (i) there are insufficient beds in our medical centre to cater for all the Employee Consultants' patients if the Employee Consultants were to work full time at our medical centre and not allowed to practice in other medical centres;

- (ii) the patients of the Employee Consultants may have other illnesses that require the attention of other specialists currently not available at our Group's medical centre at this juncture; and
- (iii) our medical centre may not be on the panel of certain insurance companies and third party administrators that some other medical centres are on. Due to this reason, some patients who prefer to have their medical bills paid directly by the insurance companies or third party administrators may prefer to have their consultations and medical treatments performed in other medical centres.

As the Employee Consultants are allowed to consult and treat patients in other medical centres, they can maintain continuity of care for their patients, retain their patients and increase the earnings of the Group, all of which are beneficial to the Group.

The RRPTs are necessary for the day-to-day operations and are in the ordinary course of business of the Group as the RRPTs form part of the Employee Consultants' overall compensation packages under the terms of their employment agreement with the Group. The RRPTs are made on an arm's length basis and on normal commercial terms which are not more favourable to the Related Party than those generally available to the public. The RRPTs are not detrimental to the interest of the minority shareholders of the Company.

The Proposed Shareholders' Mandate, if approved by the Shareholders, will eliminate the need to make regular announcements to Bursa Securities or issue separate circular to shareholders and to convene separate general meetings on each occasion to seek shareholders' prior approval for the entry by the Group into such transactions. This would substantially reduce administrative time, inconvenience and expenses associated with the making of such announcements and the convening of such general meetings, without compromising the corporate objectives and adversely affecting the business opportunities available to the Group.

4. INTERESTS OF DIRECTORS, MAJOR SHAREHOLDER AND/OR PERSONS CONNECTED TO THEM

As at the LPD, the direct and indirect shareholdings of the Interested Directors, Interested Major Shareholder and/or persons connected to them in the Proposed Shareholders' Mandate are as follows:
